## How to Make Money with 3D Printing: Passive Profits, Hacking the 3D Printing Ecosystem and Becoming a World-Class 3D Designer (Paperback)

---

By Jeffrey Ito

Createspace Independent Publishing Platform, United States, 2014. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Many people know what 3D printing is, and others may have even seen one in action. However, few today know how to create 3D models, much less use their printer. Currently, understanding and utilizing the technology to design and manufacture products (as opposed to things ) still proves to be difficult for a myriad of reasons. Like any growing innovative technology, as the quality, speed and costs are optimized, the adoption rate and potential uses start to flourish. 3D Printing is a rising technology that will soon disrupt many industries across the economic spectrum. 3D Printing is dubbed the Democracy of Manufacturing. Imagine. Anyone can design and create anything for anyone, anywhere. The democratization of media through self-publishing tools has spawned an age where everyone can easily produce and publish as an artist, producer, director or writer. Well, with the Internet 3D printing the same is soon to change for objects. Before long people will be able to design, print and sell products from the comfort of their own homes. However, despite all the hype...
