Portfolio Hardcover, 2009. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "America's debt is a powder keg about to blow, and the fuse was lit by the rush of bailouts and stimulus spending." Is your money inflation-proof? It had better be. On the heels of the most recent economic crisis, America is headed toward another: high inflation and dollar devaluation. Charles Goyette reveals the governmental errors that led to the current economic crisis and the bumpy road ahead. The signs are clear: Federal debt is compounding while growth has stalled, and America's foreign creditors are questioning the dollar's reserve currency status. Meanwhile, the "hidden" federal debt, much larger than the official debt, makes things even worse. So what can you do to safeguard your assets when the dollar heads south? This book is the essential guide for protecting yourself--and even profiting--in this time of financial turbulence. In clear detail, Goyette explains the alternative investments--from gold and silver to oil and agriculture-- that will remain strong in the face of mounting inflation. The Dollar Meltdown gives you the tools to maintain the value of your savings and capitalize on the coming opportunities. Don't get left holding the bag after decades of government irresponsibility. The Dollar Meltdown shows you how to take the safety of your finances into your own hands.
