

## Excel 2007: the Missing Manual (Revised edition)

Filesize: 4.09 MB

### ***Reviews***

*This published publication is fantastic. it had been writtern very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*(Junius Herman)*

## EXCEL 2007: THE MISSING MANUAL (REVISED EDITION)

O'Reilly Media, Inc, USA. Paperback. Book Condition: new. BRAND NEW, Excel 2007: the Missing Manual (Revised edition), Matthew MacDonald, Microsoft Excel continues to grow in power, sophistication, and capability, but one thing that has changed very little since the early '90s is its user interface. The once-simple toolbar has been packed with so many features over the years that few users know where to find them all. Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use. Unfortunately, Microsoft's documentation is as scant as ever, so even if users can find advanced features, they probably won't know what to do with them. Excel 2007: The Missing Manual covers the entire gamut of how to build spreadsheets, add and format information, print reports, create charts and graphics, and use basic formulas and functions. Like its siblings in the Missing Manual series, this book crackles with a fine sense of humor and refreshing objectivity about its subject, guiding readers through the new Excel with clear explanations, step-by-step instructions, lots of illustrations, and friendly, time-saving advice. It's a perfect primer for small businesses with no techie to turn to, as well as those who want to organize household and office information.
