Tor Books, United States, 2016. Paperback. Book Condition: New. Reissue. 188 x 104 mm. Language: English . Brand New Book. East Antarctica: The coldest, most desolate location on Earth. Two-and-a-half miles below the ice cap is Vostok, a six thousand square mile liquid lake, over a thousand feet deep, left untouched for more than 15 million years. Now, marine biologist Zachary Wallace and two other scientists aboard a submersible tethered to a laser will journey 13,000 feet beneath the ice into this unexplored realm to discover Mesozoic life forms long believed extinct and an object of immense power responsible for the evolution of modern man. In this sequel to *The Loch* and prequel to the upcoming *MEG 5: Nightstalkers*, New York Times best-selling author Steve Alten offers readers a crossover novel that combines characters from two of his most popular series. Steve Alten is the New York Times and International bestselling author of fourteen novels, including the *MEG* series about *Carcharodon Megalodon*, the 70-foot, 100,000 pound prehistoric cousin of the Great White shark and *Domain* trilogy, a series about the Mayan Calendar's 2012 doomsday prophecy. His work has been published in over 30 countries and is being used in thousands of middle and high school curriculum as part of Adopt-An-Author, a free teen reading program, which he founded with teachers back in 1999.
