In the first place, there are a number of excellent discussions of the general phases of the subject and of special branches, which are sound in principle and scholarly in analysis of the material. Secondly, in these days when so much is said in favor of allowing the initiative of the teacher to find full expression, any book which prescribes definite methods of teaching may be said to set itself against the trend of modern theory. Despite these considerations, however, I have long felt that there is a definite need for the kind of treatment of the subjects connected with the teaching of English in the elementary schools that I have given in this book. There is a real need of...
